

AUTO GLYM

TM

Bumper & Trim Gel

- Cleans and revives colour, restoring plastic trim to its original finish.
- Protects the paints surface by forming a tough, translucent, flexible barrier against atmospheric pollution.
- Ideal for removing dried on polish stains from bumpers and trim.
- Enhances appearance of matt black paintwork on trim, sill panels, emblems, grilles and vents.
- Safe for use on all unpainted exterior plastic and rubber components, including bumpers, fenders, grilles, mirror casings, mouldings, trim, tyre walls, spoilers, vinyl roof hoods and mudflaps.

Application Method:

- Heavily soiled surfaces should be pre-cleaned with Autoglym Bodywork Shampoo Conditioner or Autoglym Interior Shampoo and dried.
- Apply with a Perfect Palm Applicator and rub firmly to ensure an even coating and to remove polish stains.
- To treat complex grilles apply sparingly using a small paintbrush.
- Bumper Care will not harm paintwork and may be polished off using a soft cotton polishing cloth.
