

# AUTO GLYM™

## Ultra Deep Shine

“ Specially formulated for dark colours and modern water based finishes to produce a smear free, deep gloss finish

Available in:  
500ml

- Specially formulated using the finest modern polishing and coating technology to impart a tough durable finish to a wide range of paint colours.
- Recommended for new or moderately deteriorated paintwork and gives superb results on dark colours.
- Reduces and removes the hologram effect as well as filling and masking minor scratches.

### Application Method:

- Wash and dry vehicle if necessary.
- Apply to surface with an Autoglym Perfect Palm Applicator using a light circular motion (avoid application to glass and unpainted, textured plastic trim).
- Allow polish to dry to haze and polish to a high lustre.
- A secondary buff-off using an Autoglym Hi-Tech Finishing Cloth is recommended to achieve the ultimate finish.

Get up to  
14 applications  
from a  
500ml bottle!!\*

\*Calculations  
based on  
using 34ml  
per application

### Sustainability message

This product is  
packaged in a  
recyclable bottle  
that contains  
up to  
20% PCR

Apply  
Ultra Deep Shine  
to a Perfect Palm  
Applicator.

Apply using a light  
circular motion. Increase  
pressure if necessary to  
remove fine scratches or  
oxidation. Allow polish  
to dry to a haze.

Polish to a high lustre  
using a clean, dry cloth.  
A secondary buff-off using  
a Hi-Tech Finishing Cloth  
is recommended  
to achieve the  
ultimate finish.
